COMPETENCES

CRITICAL THINKING

- ✓ This means I can take good decision and do what is required for to solve problems. Which also includes analytical ability such as collect and evaluate information.

CREATIVE THINKING

- ✓ Being creative for me in working life means that I have an imaginative way of solving problems or creating new ways of working. It's about more than just being innovative - like that be able to see something that does not exist and make it visible

TEAM WORK

- ✓ Cooperation is the ability to work effectively with others, regardless of differing opinions. "Today, work teams can be very different in their views on political issues, working methods and have different personalities", This is incredibly important. If you want to go far, you go together in Team.

LEADERSHIP

- ✓ This involves things like education, coaching, guiding and being able to keep track, also in services which does not include directly Leadership, the ability to be able to motivate colleagues incredibly appreciated.

CUSTOMER SERVICE

- ✓ The customer is KING, the most important thing Many companies have, "Whatever we want or not we all work with sales today", " This includes the ability to listen, talk, convince and negotiate cooperative ". This is me The King.

SALES

- ✓ It's not just sellers who have to be able to sell, or one might say convince. Even those who do not has a direct sales role, even as developers and testers, need be able to convince others of their ideas and visions. To succeed skills are required to communicate

COMMUNICATION

- ✓ It is not only in sales situations that an ability to communicate is important. It is at least as important when technical decisions must be made: partly for to make good decisions, partly to the members of a team should thrive together. An aspect with communication that is important is that be able to tell a story. A good way to practice it is to tell about his own career, both in large features and with interesting details.

ADJUST

- ✓ Developer, Tester, Business Analyst applies of course most professions, those who have problems with Adapting get it hard. And the changes comes often quickly and unexpectedly. The ability to adapt has incredibly important. I see myself myself as Water, you pour me in a glass, I shape myself as one glass.

MOTIVATION COMPETENCE

- ✓ Jag är mycket driftig, ihärdig, energisk, motiverad, resultatnriktad, initiativtagande och kvalitetstänkande. Jag är också duktig på att se alla dessa saker i mina med människor och berättar gärna detta till dem för att få dem att växa.

INTERPERSONAL COMPETENCE

- ✓ This is about my social skills. On all mine workplaces we worked in team vi was given a task to carry out a certain project. The better the team is at to
